Important notices

You must read the following notices before reading or making any use of this document or any information contained in this document. By continuing to read, use or otherwise act on this document, you agree to be bound by the following terms and conditions, including any modifications to them.

This presentation (Presentation) has been prepared by Renegade Exploration Limited (Renegade) based on information available to it from them and third party sources as at 24 June 2021. This document is provided for informational purposes only and does not constitute or contain an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any security in Renegade. This document is not a prospectus, product disclosure statement or other offering document under Australian law or any other law, will not be lodged with the Australian Securities and Investments Commission, and may not be relied upon by any person in connection with an offer or sale of Renegade securities. The release, publication or distribution of this document (including an electronic copy) outside Australia may be restricted by law. If you come into possession of this document, you should observe such restrictions and should seek your own advice on such restrictions. Any non-compliance with these restrictions may contravene applicable securities laws. By retaining this document, you (the Recipient) acknowledge and represent to Renegade that you have read, understood and accepted the terms of this Important Notice.

Disclaimer

The information in this document is general in nature and does not purport to contain all the information that a prospective investor may require in evaluating a possible investment in Renegade or that would be required in a prospectus or a product disclosure statement prepared in accordance with the Corporations Act 2001 (Cth) or the securities laws of any other jurisdiction. You should not treat the contents of this document, or any information provided in connection with it, as financial product, investment advice or any other type of recommendation or advice in relation to Renegade securities. Each recipient of this document should make their own enquiries and investigations regarding all information in this document, including, but not limited to, the assumptions, uncertainties and contingencies which may affect the future operations of Renegade and the impact that different future outcomes may have on Renegade.

No representation or warranty is made by Renegade or any of its advisers, agents or employees as to the accuracy, completeness or reasonableness of the information in this document or provided in connection with it. No information contained in this document or any other written or oral communication in connection with it is, or shall be relied upon as, a promise or representation and no representation or warranty is made as to the accuracy or attainability of any estimates, forecasts or projections set out in this document. No liability will attach to Renegade, with respect to any such information, estimates, forecasts or projections.

To the maximum extent permitted by law, Renegade does not accept responsibility or liability for any loss or damage suffered or incurred by you or any other person or entity however caused (including, without limitation, negligence) relating in any way to this document including, without limitation, the information contained in or provided in connection with it, any errors or omissions from it however caused (including without limitation, where caused by third parties), lack of accuracy, completeness, currency or reliability or you, or any other person or entity, placing any reliance on this document, its accuracy, completeness, currency or reliability. Renegade does not accept any responsibility to inform you of any matter arising or coming to Renegade's notice after the date of this document which may affect any matter referred to in, or information included in, this document. Any liability of Renegade, their advisers, agents and employees to you or to any other person or entity arising out of this document including pursuant to the Australian Securities and Investments Commission Act 2001 (Cth), Corporations Act 2001 (Cth), the Competition and Consumer Act 2010 (Cth) or any corresponding provision of any state or territory legislation, or similar provision under any applicable law is, to the maximum extent permitted by law, expressly disclaimed and excluded.

Future matters

This document contains information relating to certain intentions, expectations, future plans, strategy and prospects of Renegade. Those intentions, expectations, future plans, strategy and prospects may or may not be achieved. They are based on certain assumptions, which may not be met or on which views may differ and may be affected by known and unknown risks. The performance and operations of Renegade may be influenced by a number of factors, many of which are outside the control of Renegade. No representation or warranty, express or implied, is made by Renegade, or any of its directors, officers, employees, advisers or agents that any intentions, expectations or plans will be achieved either totally or partially or that any particular rate of return will be achieved. Given the risks and uncertainties that may cause Renegade's actual future results, performance or achievements to be materially different from those expected, planned or intended, Recipients should not place undue reliance on these intentions, expectations, future plans, strategy and prospects. Renegade does not warrant or represent that the actual results, performance or achievements will be as expected, planned or intended.

Release of this document has been authorized by Mr Robert Kirtlan, Renegade's Chairman.

Global exposure to gold, copper, silver, zinc, and critical minerals.

Nevada Projects USA

Gold, Silver

- Acquired in May 2025 for US\$150,000 from G50 Corp (ASX:G50).
- All four projects have significant gold-silver mineralisation at surface.
- Targeting epithermal gold-silver mineralisation and copper-gold porphyry style mineralisation.
- Caisson Project prospective for large Au system.

Yukon Project Canada

Zinc, Gold, Germanium,
Gallium, Antimony, Silver

- Zinc resource defined 201.
- Limited work done since.
- 2025 database review:
 - High grade germanium in the zinc deposit plus gallium.
 - Gold soils and rock chips show high grade gold, silver plus antimony.
 - Exciting prospect in Yukon which has been lit up by nearby Snowline discovery.

Cloncurry Project Australia

Copper, Gold

- Mongoose copper deposit within the greater Mongoose Mineralised Zone on strike from neighbouring Great Australia Mine and Taipan Deposit.
- More excellent results from third drilling program Oct24.
- Opportunity for early development.

New Nevada Projects (100%)

Four gold-silver projects within the prolific Walker Lane Trend – a relatively under-explored but high discovery potential area that stands out with exceptional high-grades and growing reserves.

- Surrounded by numerous +1M ounce gold deposits:
 - Round Mountain 20Moz
 - Comstock 8Moz
 - Goldfield 5Moz
 - Tonopah 2Moz
 - Bull Frog 3Moz
- Geologically similar to nearby past producing mines:
 - Rawhide (1.7Moz)
 - Paradise Peak (1.6Moz)

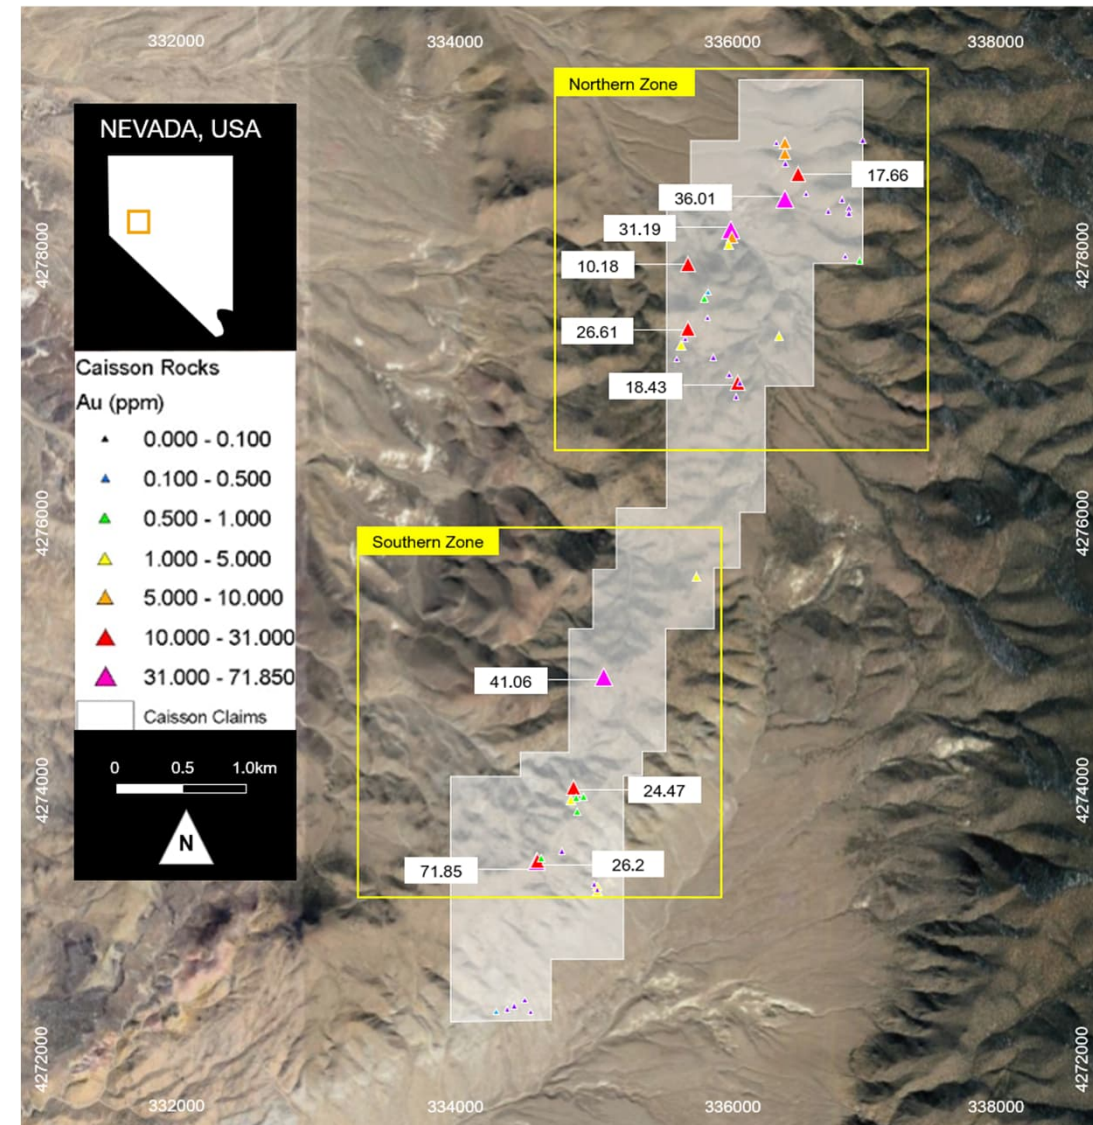

New Nevada Projects

Caisson Project – Rock Chip Sampling

Early indications of a large, intrusion-related gold-silver system.

- **48 samples collected averaging 7.54g/t gold over ~7km strike length.¹**
- **Rock chips include:**
 - 71.85 g/t Au (sample ID: 587236)
 - 41.06 g/t Au (sample ID: 590794)
 - 36.01 g/t Au (sample ID: 590770)
 - 31.19 g/t Au (sample ID: 590780)
 - 26.61 g/t Au (sample ID: 587252)
 - 26.20 g/t Au (sample ID: 590790)
 - 24.47 g/t Au (sample ID: 587324)
 - 18.43 g/t Au (sample ID: 590791)
 - 17.66 g/t Au (sample ID: 590775)

¹See ASX Announcement 10 June; Significant gold rock chip results at new Nevada Project

Map showing location of rock chip samples

New Nevada Projects

Caisson Project

Early indications of a large, intrusion-related gold-silver system.

- Early-stage, high-grade project with limited prior drilling.
- Reconnaissance and verification sampling produced excellent results with high-grade gold occurring in quartz and quartz-sulphide veins within a granitic intrusion.

Shear zone in prospecting pit

Source: Gold 50 Limited Prospectus, Independent Geologist Report

New Nevada Projects

Spitfire Project

Targeting orogenic Au-Ag mineralisation in laterally extensive flat-lying quartz veins.

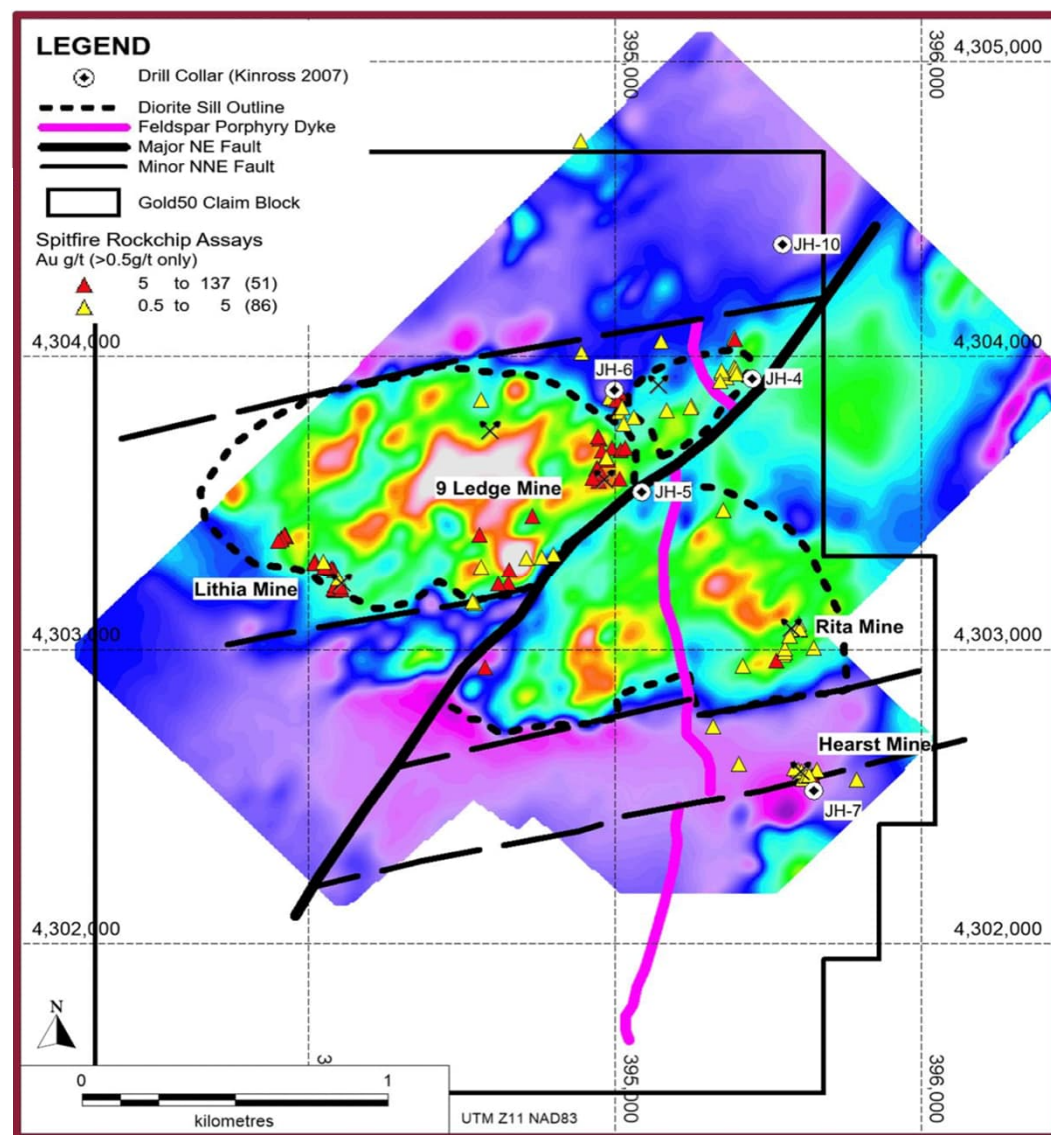

Kinross Gold USA exploration data

- 21 rock chip samples contained more than 10g/t averaging 25g/t Au and 75g/t Ag.
- Best sample - 88.9 g/t Au.

G50 Corp Exploration

- Initial 74 rock chip samples collected by G50 included 21 samples >10g/t Au averaging 35g/t Au and 75g/t Ag.
- Mapping, surface sampling & geophysical surveys completed by December 2021

Source: Gold 50 Limited Prospectus, Independent Geologist Report
Gold 50 Limited releases

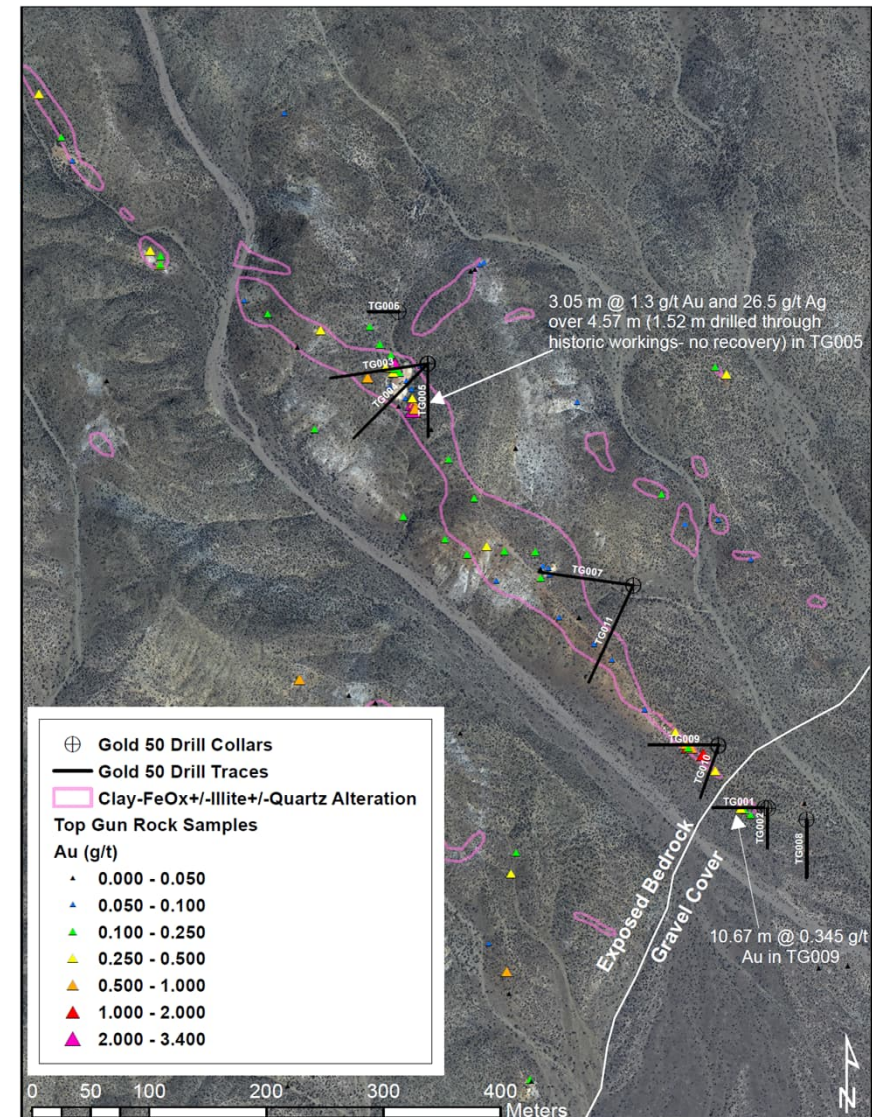

New Nevada Projects

Top Gun Project

Targeting epithermal Au-Ag similar to nearby Rawhide (1.7Moz) Paradise Peak (1.6Moz) mines.

- RC drilling completed in late 2021 confirmed Au-Ag mineralised epithermal system.
- Drilling tested a 1,150m long, ~50m wide zone of pervasive silicification, argillic alteration and localised zones of vuggy silica alteration
- Best results:
 - 3.05m at 1.3g/t Au and 26.5 g/t Ag** in hole TG005 (excludes 1.52m internal interval due to no sample from historic mining void)
 - 400m along strike from TG005, drill hole TG009 intersected **10.6m at 0.4 g/t Au from 42.7m** **

Gold 50 Limited Releases

Yukon Project 2.0 (RNX 90%)

Legacy asset underappreciated?

- Acquired 2007 targeting zinc.
- Drilled 2008-2010, metallurgical work done.
- Zinc market faltered post 2012 and the asset languished.
- So, what has happened recently?

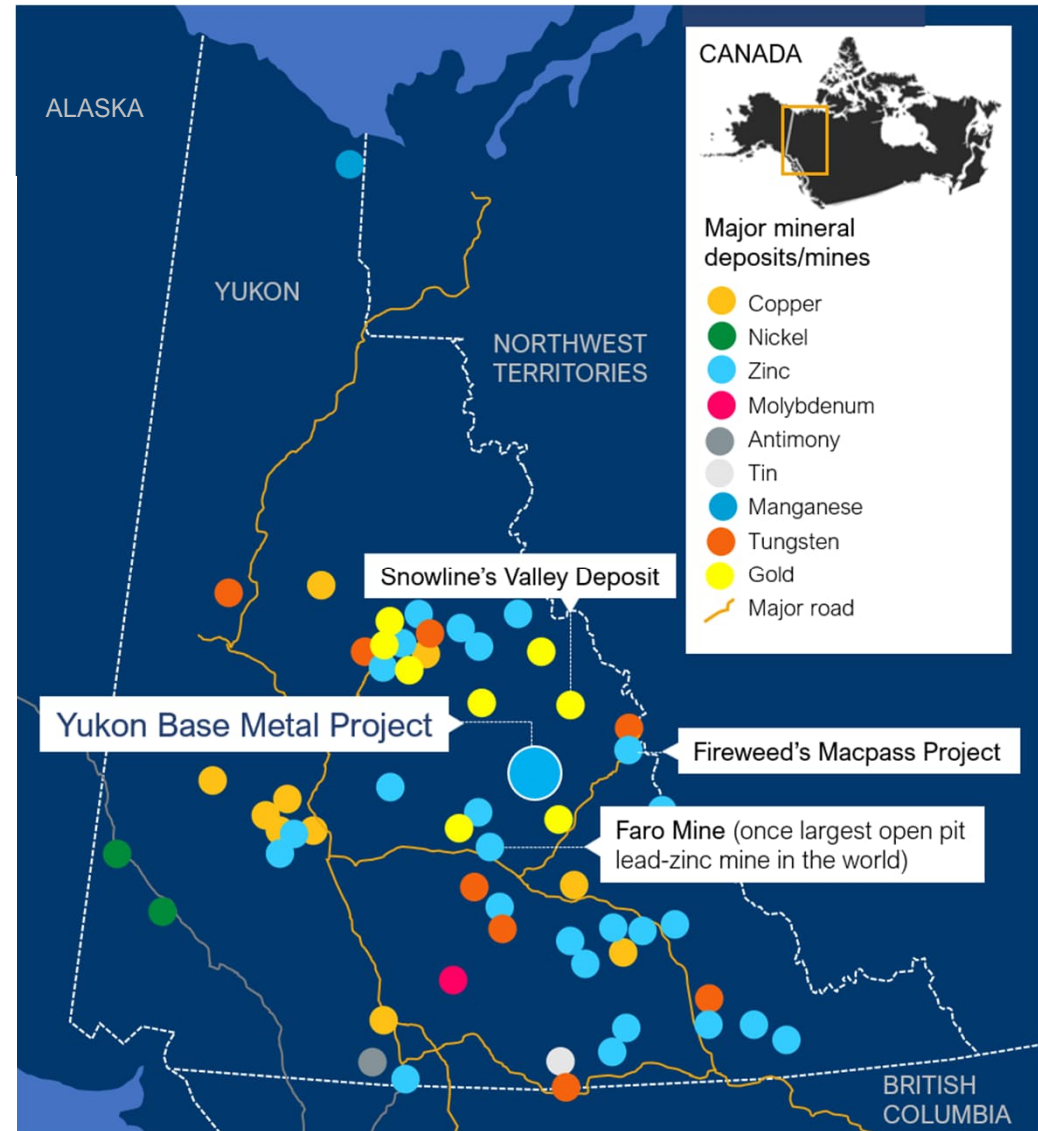

JORC Resource

12.56Mt

@ 5.3% Zn, 0.9%Pb¹

¹For exploration results, refer ASX Release dated 31 March 2014: Quarterly Activities report.

For information regarding the Mineral Resource estimate for the Yukon Base Metal Project, refer to ASX Release dated 2 March 2018. Renegade confirms that it is not aware of any new information or data that materially affects the information included in those announcements, and that all material assumptions and technical parameters underpinning the relevant Mineral Resource estimate continues to apply and have not materially changed.

Our Christmas project was to review the Yukon database...

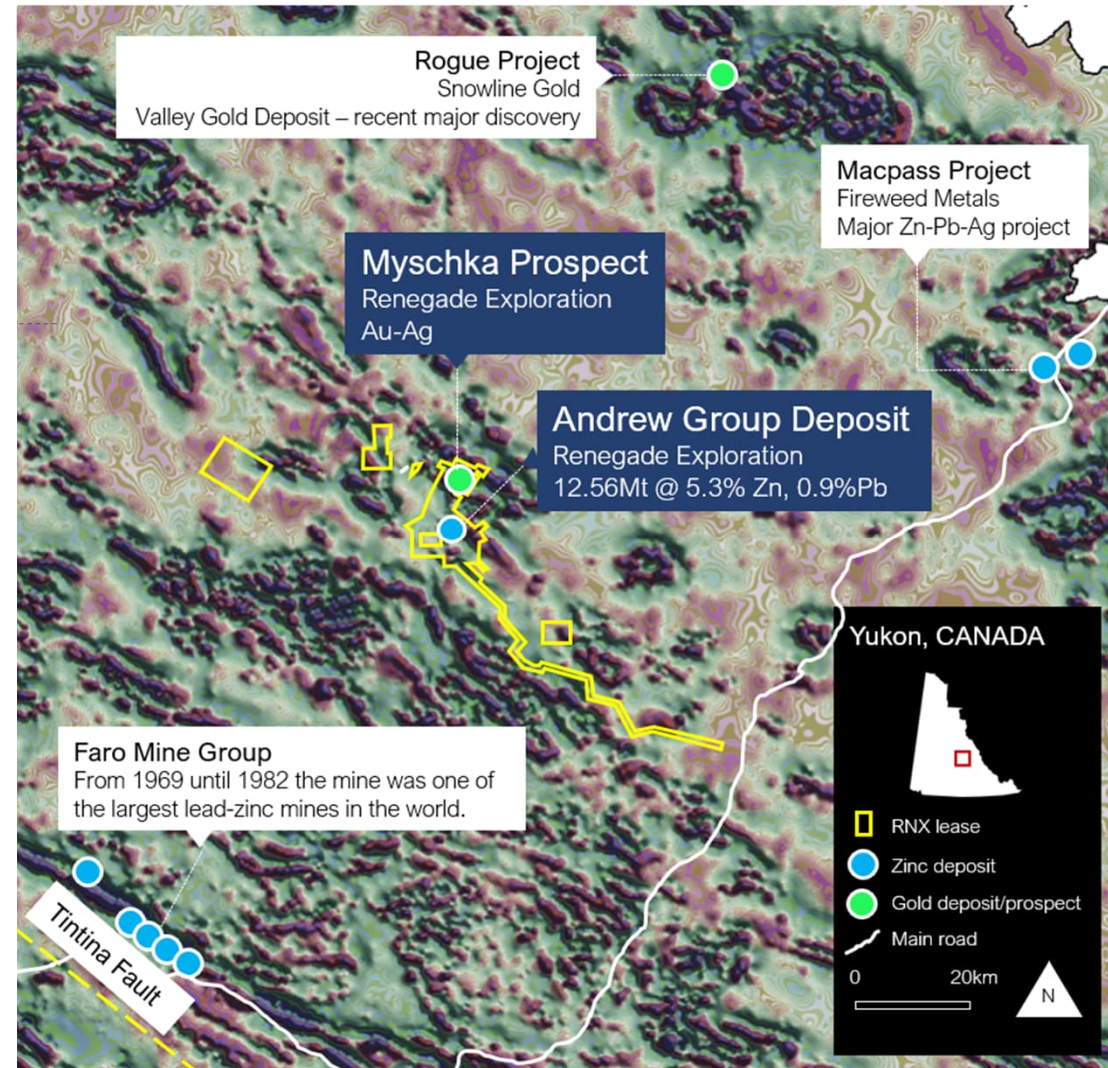

Maybe it isn't a pig's ear! An opportunity for a silk purse?

- Fireweed Metals announced substantial funding for their nearby critical minerals from the US and Canadian governments.
- Snowline Resources has made an outstanding IRGS discovery at their nearby Valley Deposit and are now **+C\$1Bn market cap.**
- The review produced some real surprises:
 - High grade Germanium plus Gallium in the Zinc deposit¹.
 - Ge up to 48g/t, Ga up to 28g/t
- Myschka Prospect is early-stage but a prior soil program generated high grade gold, silver and antimony.
 - 1.05g/t Au, 560g/t Ag (RCS M1043), +1% Sb,
- Myschka is a large 2km x 1.5km soil anomaly which hasn't been drilled.

Going to the ends of the earth

Renegade permits and surrounding mines and deposits

¹Refer ASX Release dated 5 February 2025; High grade critical defence metals identified at Yukon Andrew Deposit.

²Refer to ASX Release dated 11 February 2025; Review of historic soils yield high grade gold, silver and antimony.

Cloncurry Copper Project

RNX 35%

Great position in copper rich north-west Queensland

Excised from the Carpentaria Joint Venture and under Renegade control and operatorship¹.

Mongoose Deposit

- Inferred JORC resource 3.1Mt @ 0.55% Cu and 0.07g/t Au² for copper in ground value US\$150m³.
- True North Copper discussions in progress.

Mongoose Deeps Prospect

- Very-large magnetic anomaly drilled and part funded by \$300,000 Queensland govt grant.
- Discovery of Ernest Henry style IOCG structure.

¹Refer ASX Release dated 16 January 2023; Renegade assumes control of Mongoose Project

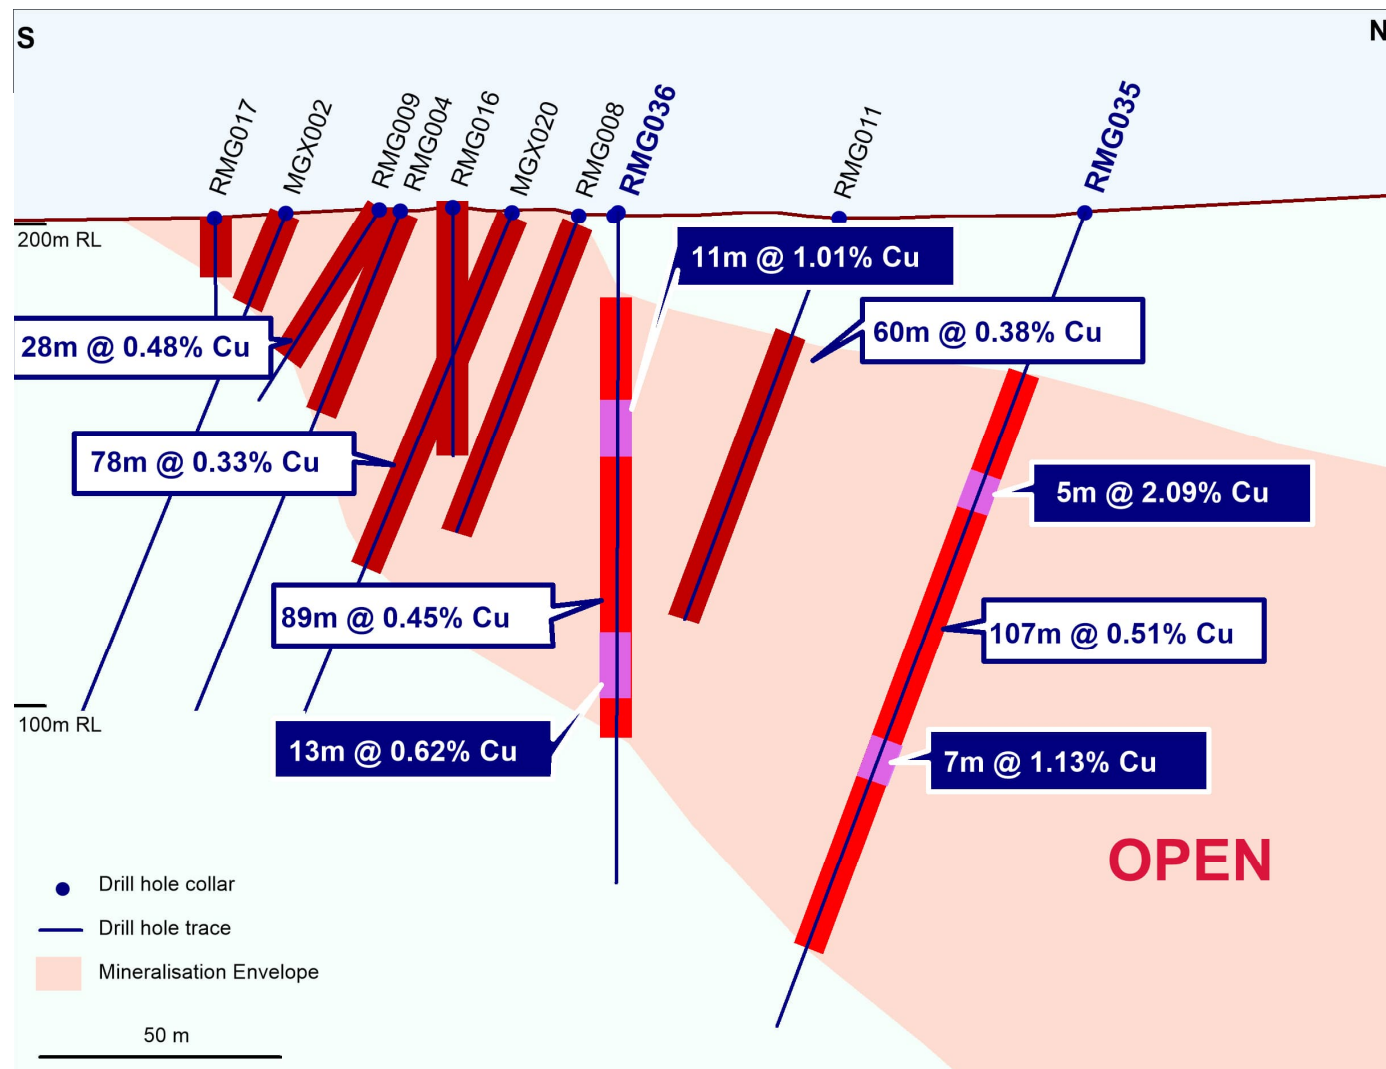

²Refer ASX Release dated 12 December 2023; Maiden Mongoose Cu-Au Mineral Resource

³Based on an LME 3-month closing price on the 19/03/2024 and an exchange rate of 1USD:1.53AUD, rounded to the nearest 1m

Cloncurry Copper Project

October 2024 drilling success at Greater Mongoose Mineralised Zone.

- **RMG035** big hit in extends Mongoose deposit zone*:
107m @ 0.51% Cu from 55m including:
5m @ 2.09% from 60m, and
7m @ 1.13% from 116m.
- **RMG036***
89m @ 0.45% Cu from 16m including:
11m @ 1.01% Cu from 39m, and
13m @ 0.62% Cu from 89m.
- Deeper RC drilling encounters intense Red Rock alteration and potential Ernest Henry style magnetite rich breccia/shear zones.

Cross section looking west, showing the new holes RMG035 and RMG036 at Mongoose.

Three compelling projects: What's next?

Yukon Project

Zinc, Gold, Germanium,
Gallium, Antimony, Silver

- On site in coming weeks
- Field programs including soils, rock chipping and drill planning
- Drilling planning asap

Nevada Projects

Gold, Silver

- Immediate leverage to highly prospective Walker Lane gold-silver projects
- Field programs being planned for current season

Cloncurry Project

Copper, Gold

- Deposit at Mongoose defined
- Negotiations to monetise Mongoose are in play
- Continue with targeting further shallow resources and the hunt for Ernest Henry 2.0

Strong leadership

Our team has extensive experience in the mining and resources sector, including project acquisition, financing, exploration, development and construction.

Robert Kirtlan
Director

Former finance professional working for major investment banks in Sydney and New York focusing on global mining. Involved in the mining industry for approximately 35 years arranging equity and debt financing for junior and major mining companies. Several prior companies successful with asset monetisation plus a number acquired by takeover.

Mark Connelly
Non-Executive Director

Proven track record in the mining industry. Former CEO of Papillon Resources and Adamus Resources. Both companies were acquired by way of takeovers with Papillon valued at over USD570m. Significant operational and development experience. Recent involvement in a number of successful development and M&A plays.

Mark Wallace
Non-Executive Director

Background in economics and finance. Spent almost 20 years working for both major and boutique Investment Banks specialising in the Global Materials and Energy sectors. Bulk of his career in London and Sydney identifying, advising and financing early stage and pre- development mining and energy companies.

Peter Rolley
Consulting Geologist

Senior geology professional with ~40 years' experience across North America, South America, Africa and Australia. Previous roles include Freeport, Teck, Oceania Gold, recently Hillgrove Resources. Masters in Geostatistics from UQ and five years at Schofield complements his excellent exploration and in pit credentials.

Competent person and geological information

Information on Queensland and Yukon I Prospects and Projects, the subject of this presentation, is sourced from the Queensland Department of Resources, data supplied by Mt Isa Mining Limited and Company generated data. The information was compiled by Mr Edward Fry, who is an consultant to the Company. Mr Fry is a Member of the Australian Institute of Mining and Metallurgy. Mr Fry has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and the activity he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results (JORC Code). Mr Fry consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The references in this announcement to Exploration Results were reported in accordance with Listing Rule 5.7 in the announcements: Mr Fry consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The information in this announcement that relates to geological information for the Nevada Projects is based on information compiled by Mr Peter Rolley, who is a consultant to the Company. Mr Rolley is a Member of the Australian Institute of Geoscientists. Mr Rolley has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and the activity he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results (JORC Code). Mr Rolley consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The references in this announcement to Exploration Results were reported in accordance with Listing Rule 5.7 in the following announcements:

Date	ASX Release
16 January 23	Renegade assumes control of Mongoose project
31 March 23	Drilling intercepts near surface copper at Mongoose
1 May 23	Drilling continues to intercept near surface copper at Mongoose
12 December23	Maiden Mongoose Cu-Au mineral resource estimate
2 July 24	Ernest Henry style IOCG discovered at Mongoose Deeps Prospect
7 November 24	Mongoose drilling delivers best intervals to date
4 December 24	Assays confirm gold mineralisation complementing reported broad copper intervals
5 February 25	High grade critical defence metals identified at Yukon Andrew deposit
11 February 25	Review of historic soils yields high grade gold, silver and antimony
10 June 2025	Significant gold rock chip results at new Nevada Project

Yukon Resource	Date
Maiden Mongoose Cu-Au mineral resource estimate at Cloncurry Project	12 December 2023
The references to Mineral Resource estimates were reported in accordance with Listing Rule 5.8 in the announcement above. In accordance with ASX Listing Rule 5.23, the Company confirms that it is not aware of any new information or data that materially affects the information included in the previous market announcement noted above and that all material assumptions and technical parameters underpinning the Mineral Resource estimates in the previous market announcement continue to apply.	

Mongoose Resource	Date
Quarterly activities report	21 March 2014
Yukon Base Metal Project – Resource Estimation	2 March 2018
The references to Mineral Resource estimates were reported in accordance with Listing Rule 5.8 in the announcements above. In accordance with ASX Listing Rule 5.23, the Company confirms that it is not aware of any new information or data that materially affects the information included in the previous market announcement noted above and that all material assumptions and technical parameters underpinning the Mineral Resource estimates in the previous market announcement continue to apply.	

Cautionary Statement
The company uses an Olympus Vanta portable hand-held XRF analyser to screen samples for mineralisation before submitting samples to the lab for assay. This allows for some understanding of the distribution of mineralisation prior to sampling to better ensure that samples submitted for analysis are representative of the type and style of mineralisation. The hand-held XRF provides confirmation that mineralisation is present however it is not an accurate determination of the elemental concentration within the sample analysed. The use of pXRF readings only provides the indication of the order of magnitude of formal assay results and is not considered equivalent to a laboratory analysed sample result. Limitations include very small analysis window, possible inhomogeneous distribution of mineralisation, analytical penetration depth, possible effects from irregular rock surfaces. These results obtained from the hand-held XRF are indicative only and may not be representative of elemental concentration within the material sampled. The pXRF readings are subject to confirmation by chemical analysis from an independent laboratory.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the previous market announcements noted above.
